

UN 31 A/Y Fuel Trailers – USA, Europe & Canada compliant

The standout feature is the UN 31A/Y certified tank, which guarantees they can be transported safely and securely while full of fuel on major roadways in USA/Canada and Europe.

TransFueller UN 31 tanks offer a reliable solution for managing all fuel types across North America and Europe. These stackable tanks come with forklift pockets and can be easily mounted to a trailer or truck allowing you to transport fuel on public roads—even when full.

These tanks are outfitted with aviation-rated dispensing equipment and all the necessary features you need to monitor your fuel purity, giving you peace of mind.

STANDARD FEATURES

- Can accommodate up to 10M or 40ft retractable hose reel mounted in the bunded equipment compartment.
- Multiple ports that can connect up to three pieces of machinery at one time and allow dispensing simultaneously.
- Galvanized stacking corners double up as a lifting bracket

We build your trailer according to your specs.
Please contact us for any special features.
